Next Steps for Taxpayers

Visit the e-Invoice Portal

Explore the official e-Invoicing portal to understand the system, compliance requirements, and available resources.

Determine If You Need a Service Provider

Decide whether to integrate independently or partner with a certified Service Provider (System Integrator or Access Point Provider) for seamless implementation.

Evaluate Your Current Accounting System

Assess whether your existing ERP or accounting software is compatible with e-Invoicing standards and can integrate seamlessly with the FIRS system.

Complete the Enablement Form & Create Your e-Invoice Account

Register on the e-Invoicing portal by completing the taxpayer enablement form and setting up your e-Invoice profile.

Engage Continuously with FIRS

Maintain active communication with FIRS for guidance, technical support, and updates throughout your e-Invoicing adoption journey.

Engage Your OEM or ERP Vendor

Consult with your Original Equipment Manufacturer (OEM) or ERP provider to check if they offer global strategies for automatic compliance with e-Invoicing regulations.

Commence Integration

Work with your IT team or Service Provider to integrate your accounting system with the FIRS e-Invoicing platform.

Ensuring a transparent and accountable tax ecosystem through e-invoice.
